Proposed Mill Workers'Staircase

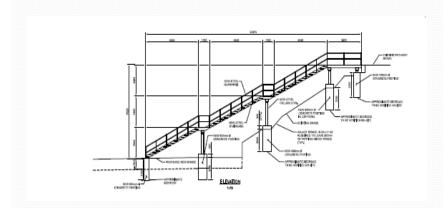

Engineering Options to Ascend 9.5 Bank at end of Earthen Dam

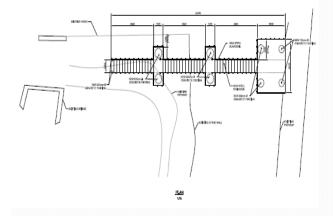

Staircase:

- Centreline of the existing approach, perpendicular to the railway, is only practical alignment.
- Option 1 -minimum 280mm run dimension, as permitted by code; permits landing at top of stairs, and wide steps
- Option 2 run dimension was increased to 392mm; did not allow landing
- Path:
- Option 3 best possible swichback walking path had an overall grade of 16% which is well above code of 10 %
- Option 1 Staircase was selected: ease of use

Right Elevation of Staircase

- •Structural Steel
- •Steel Plate Sections
- •Steel Guardrails
- •Concrete Footings
- •Upper Landing 3.6 m
- •Stair Landings 1.2 m

Approach to Meeting Accessibility

- Minimum effort is not acceptable or adequate in addressing accessibility.
- Accessibility work-arounds, including alternate access routes are acceptable, provided a similar/equitable experience is provided.
- Accessibility signage must be installed at key points.
- Our Table implements this approach.
